

Empress Marasiah Fel has been deposed and imprisoned by her uncle Hogram Chalk, who has seized control on Coruscant. Her last hope is her cousin Ania, who must put together an unlikely team to seek her rescue, one that includes Mandalorian mercenaries, Alliance rebels, wayward Imperial Knights, and her own mother.

Meanwhile, Cade Skywalker and crew have finally tracked down Khat Lah, a Yuuzhan Vong they believe he might be key to reawakening the Force across the galaxy, but the ancient planet on which they've found him presents even greater mysteries.

None of more mystified than young apprentices Eli Horn and Kyra. More than anyone else, it is their fates that will be made on this strange planet- and their fates that will determine the galaxy's.
